

JOB POSTING

Vaccinator Super Shot, Inc.

We are looking for a team oriented, compassionate, community-minded MA, CMA, LPN, NP, PA, or RN to administer pediatric and adult immunizations at our Hobson, Grabill, and Anthony Medical Center clinics.

Greatest needs currently include:

**Tuesdays PM (4-7), Wednesdays PM (4-7), Thursdays PM (4-7) and Saturdays AM (9-Noon)
Additional shifts available.**

Qualifications

- Current licensing as an MA, CMA, LPN, NP, PA, RN or other certified vaccinator in Indiana
- Must be able to learn and master the pediatric immunization schedule
- Possession of a current CPR certification recommended; required within 3 months of hire date
- Pediatric nursing experience preferred, but not required
- Previous experience with immunizations or public health nursing preferred, but not required
- Willing to learn accepted principles, best practices, and recommended schedules for giving immunizations, per physician standing orders
- Ability to work independently and without direct supervision
- Ability to effectively communicate, work with, and relate to co-workers, parents, and children
- Ability and flexibility to continually update professional knowledge
- Ability to properly maintain needed documentation
- Ability to maintain confidentiality of all records and information; HIPAA training must be completed within 3 months of hire
- Ability to bend, stoop, and lift children and supplies weighing approximately 30 pounds
- Ability to sit, stand, and walk for extended periods of time
- Knowledge of and ability to follow standard precautions to avoid illness or injury to self and others
- Ability to potentially serve as charge nurse and problem solve as questions or challenges arise
- Fluent in Spanish preferred, but not required

Duties

- Serve as clinic vaccinator and provide immunizations to children 0-18 years of age and adults.
- Accurate and thorough documentation in patient's medical record at time of visit.
- Assist as needed with transport of clinic supplies and vaccine, coordinating with other clinic staff
- Monitor and log the temperature in portable vaccine storage containers to ensure compliance with cold chain procedures as well as vaccine efficacy
- Attend in-service programs, staff meetings, and professional education workshops as required
